

Dream Garden Bug Hotel

Avant-Gardening is looking for a dedicated creative individual with good carpentry skills to help us build a stylised bug hotel for installation in a community garden space in Bermondsey.

The bug hotel will need to follow a simple design brief that will integrate work already made by pupils from local schools into the design. The bug hotel will need to be an aesthetically pleasing construction that will be both secure and robust and be part of an education project to create an urban woodland type habitat.

The hotel will be attached to railings (see photo) in a public space.

The fee will be £250 and there will be up to £100 available for materials for construction and installation.

The fee includes

- a meeting to discuss and agree design
- construction of the bug hotel
- installation to an agreed standard

We are working to a tight deadline so if anyone is interested please send an e-mail to paul@avantgardening.org by Friday 2 March outlining your experience and including links or images of any work you have done previously.
